

PEPTIRON IS GOOD

This Real Iron Tonic Combines Merit, Economy and "Pep."

Made from a formula that uses iron in most digestible form, peptin and gentian, great stomach tonics, nux and celery, the best vegetable remedies for the nerves, and also manganese and other valuable nutrients—there's no question of the value of Peptiron as a blood builder and strengthener.

The larger size of Peptiron contains enough for a full month's treatment, while other so-called iron preparations contain only one-half or less.

The "pep" or promptness with which Peptiron does its work is noted by everyone who takes it.

From the first dose the system responds to the treatment, and you realize you are at last using a medicine that begins right, continues and ends right. Better get a bottle of Peptiron today. Take two Peptiron after each meal—then comes good blood, good appetite, and—pep.

CITIZEN ASKS FOR TANK

So He Can Get Home in Time to Prevent Wife's Rising Anger.

Washington, D. C., May 9.—Tanks helped end the war in Europe; a Kentucky mountaineer thinks one might help end domestic warfare for him.

Up in the mountains where he lives, this man writes the war department, the roads get very bad. After a hard rain his horse makes slow going, and he often does not reach home until very late at night. His wife rather doubts that bad roads are the reason.

"I have heard that these tanks travel over impassable ground at good speed," he writes, "so when the government disposes of its surplus war material please send me one, so I can get home on time and live in peace with my wife."

Unfortunately for him, tanks have not yet been declared "surplus."

PITTSBURGH HOUSEWIFE

Tells How Hard-Working Women May Keep Well and Strong.

Pittsburgh, Pa.—"I keep house for my husband and myself, and I got into a weak, run-down, nervous condition and no appetite. I heard how Vinol helped others and tried it, and it built me up so, I am strong, have a good appetite, and feel better in every way."—Mrs. James Croker.

The reason Vinol was so successful in Mrs. Croker's case is because it contains the very elements needed to build up a weakened, run-down system, make rich, red blood and create strength.

DELEGATION GETS CABLE INSTRUCTIONS

Said to Have Come from Representatives of Two Chinese Governments

Paris, May 9 (By the Associated Press).—The Chinese delegation has received cabled instructions from Peking not to sign the treaty of peace because of the Kiao-Chau-Shantung settlement.

AUSTRIAN TREATY MATTERS

Were Considered By Allies' Delegations at Paris To-day.

Paris, May 9 (By the Associated Press).—Both the council of four and the council of foreign ministers resumed their sessions this morning. The former is giving special attention to the impending negotiations between the allies and Austria and the latter is discussing reports on the boundaries of former Austro-Hungarian territories.

CRITICIZES PART OF TREATY.

Executive Committee of British Labor Party Not Wholly Satisfied.

London, Thursday, May 8.—After meeting to consider the terms of peace imposed upon Germany by the allied and associated nations, the national executive committee of the British labor party to-night issued a manifesto declaring the treaty in some essential particulars "opposed to the declarations of President Wilson, of the inter-allied labor conference and the Berne conference, and very defective from the standpoint of world peace."

Other points criticized were the failure to give Germany representation on the reparations commission and the omission of provisions for a progressive limitation of armaments by the other signatories to the treaty. The manifesto protested against the permanent separation of the Saar basin from Germany and advocated a plebiscite in Malmedy.

DEADLY TYPHUS RAGED.

Laid Low Many Hundreds of People in Macedonia.

Kavalla, Macedonia, May 8 (By mail).—Typhus, which laid low more than 600 Greek refugees from Bulgaria in this city alone, also hit heavily the small group of Americans here. Edward Walker of Blackburg, Va., a lieutenant in the American Red Cross, died of the disease. Miss Clarissa R. Bakesides of Drexel Hill, Pa., was dangerously ill. Miss Florence A. Stone of Plainfield, N. J., Kenneth A. Thomas of Bridgeport, Conn., and J. L. Taylor of Paterson, N. J., also were stricken. All were American Red Cross workers.

Professor C. F. Civolet and Mr. Michael of the Greek Red Cross mission, who visited Kavalla, caught the typhus at the same time and both died.

With virtually all its personnel at Kavalla ill with the disease, the American Red Cross doctors from nearby places co-operated with the Greek Red Cross in fighting the disease. Groups of

dead were removed from this city daily. From here the disease spread to the city and the army barracks. Finally 200 sick in the warehouses broke from all restraint and fled into the open country, carrying the disease with them to infect other centers of population.

Typhus in Macedonia can be traced to

the arrival of 2,820 Greek refugees who landed at Kavalla on Jan. 25 after coming by sea from Varna, Bulgaria. When they reached Kavalla 60 of their number were down with typhus.
